

# WIX BASICS

## Adding - Video, Pic Gallery and Blog Page

---

### CHECKLIST

- Please go through the checklist while you are in your site and try each function.

---

### VIDEO

- You can add video from multiple sources to any place and any page. Video is a great tool to communicate you client what you do and how you do it. Visually they are drawn to video as well.

Check Here If You Can:

- Add a video box to your page.
- Add a video of your own to the box.
- Set the video where you want and the size you want.

Video another level that we will cover later in the training.

---

### PIC GALLERIES

- Wix provides you multiple options and styles for Pic galleries that you can add to your page.

Check Here If You Can:

- Choose and Add a Pic Gallerie to your page.
- Replace the images.
- Add titles, descriptions and URL links (if necessary)
- Place gallery where you desire on your page.

There are more options to make your text more customized. Once we know how to add it and place it we will make it all pretty further in training.

---

### ADDING A BLOG PAGE

- Wix does allow a dedicated page for blogging. If you plan on writing a blog please be sure you can complete below:

Check Here If You Can

- Add a BLOG page to your site.
- Maneuver through the different templates.
